

ARJUN MEHRA

Systems & Software Engineer

Pune, Maharashtra | arjun.mehra@example.com | +91-90000-10001

PROFESSIONAL SUMMARY

Computer Engineering graduate with 2+ years of experience in Python, C++, Linux systems and distributed application development. Experienced in simulation workflows, debugging, performance testing and mission-critical software.

TECHNICAL SKILLS

Python, C++, C, SQL, Linux, Git, REST APIs, Docker, Data Structures, Algorithms, Multithreading, Distributed Systems, Unit Testing

EDUCATION

B.Tech. Computer Engineering — National Institute of Technology, 2024 | CGPA: 8.7/10

EXPERIENCE

Software Engineer Intern — Advanced Systems Lab, Pune | 2024–2025

Developed Python and C++ utilities for simulation workflows; automated test execution and log analysis; improved regression-test turnaround by approximately 30%.

Software Engineer — AeroTech Systems Pvt. Ltd. | 2025–Present

Built backend services for telemetry processing, implemented validation pipelines, optimized SQL queries, and collaborated with systems engineers on reliability testing.

PROJECTS

Telemetry Processing Platform

Designed a Python ingestion service for structured telemetry records with validation, transformation and PostgreSQL storage.

Mission Simulation Toolkit

Developed C++ modules and Python test harnesses for simulation scenarios and automated regression testing.

Fictional sample resume for testing an interview system; not an actual DRDO applicant or employee.
